SECTION III: APPLICANT PROFILE	
(Answers are encouraged to be brief and concise, but you may increase any box size if you feel it necessary.)	
Why are you interested in this volunteer position?	I have a very keen interest in neighborhood development and revitalization in my area. I have read the Adams Neighborhood Development Plan and feel that there is an eminent need to balance the student rental population with the need to make the Adams more appealing to single family residences.
What strengths would you bring to this position?	I understand community development. As a former Smithfield City employee, I took minutes for their Planning Commission for five years. I am very familiar with LUDMA. My masters thesis was on Land Use Planning in Smithfield City regarding the preservation of natural resources and the desire of residents. As part of this, I conducted a survey of citizens.
What involvement have you had in your community?	I am the former director of the non-profit, Cache Humane Society. I have volunteered with Stokes Nature Center and currently volunteer as a teacher with my local religious group. I am currently the chair of the Cache LDS Democrats. I am currently employed at the Center for Persons with Disabilities at USU.
What is one suggestion you have for improving your immediate neighborhood?	Increasing the walkability of the Adams neighborhood. Even though the transit center is in our neighborhood, there are blocks without sidewalks, sidewalks in disrepair, inadequate lighting, and busy intersections that are not pedestrian friendly. Also a park that allows dogs would be sublime.
Other information (optional)	My husband is currently a part time employee with the Community Development Department. I am unsure if this would be considered a conflict of interest.

SECTION III: APPLICANT PROFILE

(Answers are encouraged to be brief and concise, but you may increase any box size if you feel it necessary.)

Why are you interested in this volunteer position?	I recently moved to Logan and there are so many things I love about living here. I recognize that maintaining a growing city as a great place to live takes effort and input from many. I want to continue to live in such a great place thus feel community involvement is something important for me to participate in.
What strengths would you bring to this position?	Having recently settled in Logan, I believe I have some potentially unique insight into the challenges faced by newcomers. Additionally, my work is highly collaborative so I am good at working in groups, delegating, and general task management.
What involvement have you had in your community?	I have frequently attended my neighborhood meetings, I have been involved with Better Logan, and I also participate in educational outreach to the Cache Valley community through the USU Entomology Club/Insect Tours.
What is one suggestion you have for improving your immediate neighborhood?	I would like to start a "You have the Power" type campaign to remind motorists to yield to pedestrians and pay attention to cyclists. There are a lot of pedestrians and children in my neighborhood, as traffic and congestion increase I would like to ensure my community can continue to utilize their neighborhood in the ways they choose to and enjoy.
